2011 - Virginia Car Crashes: Fixed Object Off Road & Not at an Intersection

21190 Crashes involving fixed objects off-road caused over 275 fatalities in 2011 alone. This was over 43% of all fatal crashes in that year. Of these crashes, 12143 involved some combination of either alcohol or excessive speed.

Fatal Crashes Involving Alcohol or Speed

Alcohol - Speed

- NO - NO
- NO - YES
- YES - NO
- YES - YES

Fatal crashes involving alcohol or excessive speeds claim the lives of hundreds each year. Thus, it is extremely important for the DMV to determine which locations and times present the most danger and risk on the roads in order to more effectively allocate resources to those communities. Fatal crashes involving both of these issues are plotted to the left over time.
